

## A GLOBAL EFFORT TO IMPROVE MATERNITY CARE

### **IMBCI Translation Policy**

The IMBCI is free and available for translation by individuals and groups into any language they wish. We have made a policy decision to use the English acronyms IMBCI and IMBCO in all translations. Please use these acronyms consistently throughout the document. In the title, put: "NAME OF DOCUMENT IN YOUR LANGUAGE (known globally as the IMBCI because of its name in English--"The International MotherBaby Childbirth Initiative") "and the same for the name of the International MotherBaby Childbirth Organization (IMBCO)

Please have the document checked by at least three people before sending it for website posting. Two of these should be birth activists (professional translators often do not understand the language of birth, midwifery, and obstetrics) and ideally the final check will be by a professional translator who can read for grammar, punctuation, etc. Once the translation is complete, please send it to Rae Davies [rae@imbc.org](mailto:rae@imbc.org) for formatting and posting on this website.
